

# EQUIFORCE Gut Support

LIVE YEAST CULTURE FOR HORSES WITH AGRIMOS® AND KIESELGUR

## Stabilizes and improves the gut microbiome in horses

Probiotic supplement to be used to stabilize the microbiome in the horse's large intestine and hindgut. Regular use improves fiber utilization and prevents digestive imbalances, especially when feeding haylage/silage, or by larger changes in the feeding routines eg. during spring and autumn. Also very suitable for senior horses, when feeding concentrated feeds, eg. to horses in hard training/competition, and for improving the milk yield and milk quality in brood mares. Kieselgur and Agrimos® are capable of binding certain toxins and block the attachment of harmful microorganisms to the intestinal wall which improves immune response and further reduces the risk of digestive imbalances.

**Daily dose:** Horses & ponies: 15 g (1 scoop). Because the product works by altering the intestinal microbiome, the full effect can take up to 1 month to set in. Do not soak before use.

**Composition:** Yeast products, beet pulp, chalk, rapeseed oil.

**Analysis:** Crude protein: 15.7 %, crude fibre: 2.2 %, crude fat: 6.1 %, crude ash: 26.3 %, sodium(Na): 2.0 %.

**Feed additives per kg:** Zootechnical additives (digestibility enhancer): *Saccharomyces cerevisiae* CNCM I-1077 (Levucell Sc 10 ME Titan, 4b1711):  $3.2 \times 10^{12}$  CFU. Technological additives: kieselgur(E 551c): 118 g.

**1 kg contains:** Live yeast cells (Levucell Sc 10 ME Titan):  $3.2 \times 10^{12}$  CFU, Agrimos®: 333 g, kieselgur: 118 g.

**1 dose (15 g) contains:** Live yeast cells (Levucell Sc 10 ME Titan):  $2.0 \times 10^{10}$  CFU, Agrimos®: 5 g, kieselgur: 1.8 g.

**Storage:** in closed jar, away from heat and sunlight.

**Net. weight:** 1 kg.

**Feed category:** complementary feed for horses.

**Manufactured by:**
